Student Executive Meeting

North Dandalup PRIMARY SCHOOL

Student voice to leadership

Attendees: Owen Cudmore, Ivy Parsons, Amelia Hall, Merida McIntosh, Ryder Hepton, Isla Dinsey, Fletcher Forsyth, Keane Kavanagh, Rory Sargeant, Emily Duncan
Student Leaders: Ziggy Chaplin, Lacey Bennett, Bailee Lumpkin, Harper Forsyth

Date: 10.9.25

Mr Clark	Welcome	Mr Clark welcomed the group of students to the meeting. Mr Clark shared some of the success stories from the outcome of previous meetings such as plans for new playground. We also discussed what the purpose of the meeting WAS for and what it WASN'T for. The meeting was to allow students to raise issues that they feel are important in their school, and not just coming up with a list of problems.
	Class members	**Discussion Points**
Koolbardi	Isla Ryder Fletcher	Emily Art club going well, but we would like more space. SOLUTION: – possibly use art room (needs to be supervised though), Set up in a different location Rory On the swings, the fittings have been breaking and chains injuring fingers. SOLUTION: We can possibly change these to rope to avoid injuries and breakages. STUDENT LEADER INPUT: Will rope swings fray? Can we add a protective covering? Can we ask the company who is building our new playground? Keanne and Fletcher Litter is still a problem SOLUTION: Whole school needs to understand the expectations matrix (including ensuring kids are eating in the correct area) or they aren't sure which bin to use. Maybe we can include lessons on this during environment, or at an assembly. Kids can bring let packaging to school. Check the signs that go on the bins with what can go in.
Scarlet Robin	Rory Keane Emily	
Pardalote	Owen Ivy Merida	

		Isla Chickens keep escaping. Why is this a problem? They could get injured/bitten/eaten/eggs will get lost. SOLUTION: Can we install a higher fence? Can we bend the fence inwards a bit? Mrs Maddern has got a plan to refurbish the chook pen – we should tell her to make it taller/higher. Ryder Respect for the garden. Everyone is stepping on the plants. SOLUTION: The strings that Sue has put in are doing an OK job, give another message at the assembly (expectations matrix). Can we put bigger fences around the gardens? STUDENT LEADER INPUT: some kids are using the bushes to hide the balls. Can we ask the kids not to do this or if you see someone, tell a teacher. Merida Bring back Maths books. Teachers are having to print too many copies and use too much paper. STUDENT LEADER INPUT: Would it actually be cheaper to have the Maths books rather than paper? SOLUTION: Amelia Can we redo the oval? There are too many holes, this can cause injuries. What is stopping us? Rabbits are really hard to keep under control – can we install a rabbit proof fence? Can we call pest control? STUDENT LEADER INPUT: We are an environment school though, should we be promoting killing animals? Ivy We need more parking spots. People are getting stuck. The school is getting bigger. STUDENT LEADER INPUT: The amount of spaces is insufficient for the amount of people we have here. Owen Can we have a boundary or a protection on the roof to stop balls going on there? Supervision in the mornings – can we go on the oval? We know this means a teacher will need to supervise, but happier kids means a happier school. We know that teachers are usually just talking in the office. We know are lucky to play on the basketball court in the first place though. Some schools don't get to play at all.
